INSIGHTS

Lean edition Winter 2008

Showcasing the Best Lean Implementations in Victoria

Insights survey results

90% of the organisations interviewed, by a third party, stated that they **had already implemented changes** or that they were planning to implement in the near future as a result of participating at an Insight.

To get new ideas was the most common reason for participation.

Participants during 2007 attributed **\$30,000,000 of additional profits** to participation at Insights.

That's over **\$136,000 per enterprise**, did you get YOUR share.

Over **98% will recommend the Insights** initiative to others

Seeing is believing it is easier to implement when you have seen it for yourself.

Insights will again feature many of the best lean implementations in Victoria including **Toyota, Autoliv, Robert Bosch, MtM Auto, Volgren, Aisin** and the **Holden Engine Company**.

Join the 5150 participants from 920 Victorian enterprises who have taken an Insight during the last 5 years

Started to implement lean, have 5s and visuals in place, still no buy in or cultural change, time for a lean and green approach.
The business case for Sustainability is compelling, pick up a flyer for a BUSINESS of SUSTAINABILITY Insight.

The Place To Be

MTM Auto Pty Ltd

Location South Oakliegh

Lean Manufacturing

MtM Pty Ltd is a Tier One supplier to Ford, Holden, Mitsubishi and Toyota in Australia and to GM in the USA.

MtM have full design and development responsibility for a range of automotive products – door handles; autoshifts; door checks and park brakes.

MtM has embraced “lean manufacturing” as a manufacturing philosophy and are using this in a holistic way to drive improvements in many areas such as scheduling, cell operation, logistics, layout and organisational development.

The lean philosophy is seen as crucial to survival in the face of increasing local and overseas competition.
